

In the event of another lockdown and children need to stay at home, below is an outline of 2 weeks planning for Year 3 students to complete remotely. Your child has brought home a pack of learning which is a book with English sheets already stuck in and plastic pockets with Maths and Foundation work in. Most work can be completed on the sheets and some in the writing book. Google Classroom for Year 3 will have copies of the work sent out in the pack and links to websites. It will be expected that children complete Maths and English lessons daily plus a foundation subject, totaling around 3 hours every day. The foundation subject lessons can be done on any day. Should your child be in isolation and their class bubble still be attending school, work will be posted on the school website on the class page.
