Children's mental health awareness week

What is Children's Mental Health Week?

*Children's Mental Health Week is a mental health awareness week that launched by children's mental health charity, **Place2Be**. The week exists to empower, equip and give a voice to all children and young people in the UK. It is so important we all understand what makes us tick, our likes and dislikes, strengths, fears, hopes and dreams. Our emotions play a key role in telling us just that, and being aware of how to listen to and express ourselves is a major part of building self-awareness. We will be talking about feelings and emotions with the children to help build that foundational understanding.*

If you would like to know more please visit the website via the link below:

Read Happi

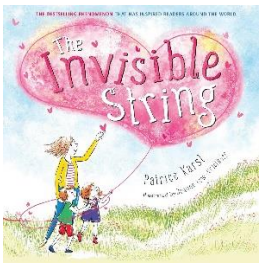

We are introducing a new book sharing scheme between parents and nursery.

We will invite five families a week to take home a bag of books to read with their children, at the end of the week please return all books in the bag to nursery.

Bag 1 -4 have five books and bag 5 contains six books, there is also a yellow book for you to provide feedback about your experience, and some information about the importance of reading to and with your child.

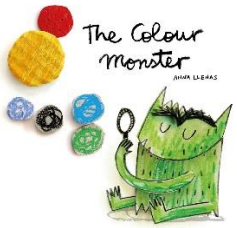

Thank you.

We continue with our stories

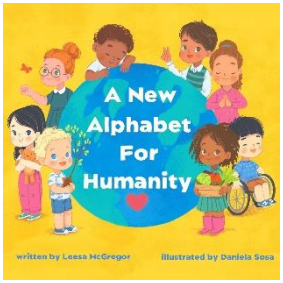

The Invisible String

The Invisible String is the perfect tool for coping with all kinds of separation anxiety, loss, and grief. In this story, a mother tells her two children that they're all connected by an invisible string. "That's impossible!" the children insist, but still they want to know more: "What kind of string?" The answer is the simple truth that binds us all: An Invisible String made of love. Even though you can't see it with your eyes, you can feel it deep in your heart, and know that you are always connected to the ones you love. Does everybody have an Invisible String? How far does it reach? Does it ever go away? You can talk about this with your children.

The Colour Monster

One day, Colour Monster wakes up feeling very confused. His emotions are all over the place; he feels angry, happy, calm, sad and scared all at once! To help him, a little girl shows him what each feeling means through colour.
What is the Colour Monster feeling? And can you help him feel a little less mixed
